

Integration of MMI (Map my India) in address field for Registration applications

- The Geo coded addresses given by Map My India (MMI) have been integrated with the GST System for existing normal taxpayers and persons applying for registration as normal taxpayer in Form GST REG-01. This feature is also enabled for normal taxpayers while applying for core/ non-core amendment in their registration details involving change of address.
- For such applications, the address related fields are now geo coded, and the applicants while entering details receive an auto suggestion for the address, on basis of keyed-in inputs which they can select. Further, a map tile has also been integrated with the User Interface of the applicants with a drag and drop feature for the address pinhead.
