

Changes made in Form GSTR-11

- The placement of 'INITIATE PRE-FILL OF GSTR-11' button has now been changed to right side corner of the screen.
- As and when a user clicks on this button, a warning message, "You are about to initiate the auto population of filed GSTR-1/5 records in your Form GSTR-11.You may view/Edit/Delete the auto populated records in the respective GSTR-11 tables. Do you want to proceed?" would be displayed.
