

- To help the taxpayer in making data entries faster and to reduce errors while creating their Statement of outward supplies in Form GSTR-1, 'My Master' facility has been created wherein taxpayers can save details of their recipients and suppliers and the HSN of the commodities they deal in for following two masters on the portal and in the offline tool:
  - Product Master
  - Supplier/Recipient Master
- Now whenever a taxpayer enters data in the related field of GSTR-1 for which master exists, Offline tool/portal will fetch the details from the Master and will show the probable values in the drop down based on the key words entered. By selecting the dropdown, all the corresponding fields of that row shall be filled up automatically.
- Taxpayers can also upload master created offline on GST common portal as JSON file to update their online master, and, similarly download the master created online and import it in the offline tool to update his master created offline.
