

Frequently Asked Questions (FAQ) on Micro, Small & Medium Enterprises (MSME)

Question 1: What is GST?

Answer: GST stands for Goods and Services Tax, which is levied on supply of goods or services. "Supply" is a legal term which has very broad sweep and various types of economic activities are covered by it. For example, sale of goods is a type of supply.

Question 2: On what supply is GST levied?

Answer: GST is levied on all types of supplies which are – (i) made for a consideration and (ii) are for the purpose of furtherance of business. There are some exceptions when these conditions are not met, yet supply is considered to have been made, for example, interstate stock transfer of goods even without consideration or importation of services even if not in the furtherance of business.

Question 3: Will GST be levied on all goods or services or both?

Answer: No, GST will not be levied on alcohol for human consumption. GST on Crude, Motor Spirit (Petrol), High Speed Diesel, Aviation Turbine Fuel and Natural Gas will be levied with effect from a date to be decided by the GST Council. Electricity and sale of land and building are exempted from levy of GST. Securities are neither goods nor services for the purposes of the WBGST Act, 2017 and therefore supply of securities is not taxable.

Question 4: How many types of GST will be levied on different kinds of supply of goods or services?

Answer: GST is a dual levy to be simultaneously levied by both Centre and State. On every supply within a State/ Union Territory without legislature (intra-State supply), GST levied will have two components - Central Tax and State Tax popularly called CGST and SGST (WBGST in West Bengal). On every supply across States (inter-State), Integrated Tax popularly called IGST will be levied. The rate of CGST and WBGST would be equal. IGST would be levied at a rate equal to the sum total of CGST and WBGST.

Question 5: Whether a registered person will have to approach two authorities - Centre as well as State for various permissions, audit etc. under the Act?

Answer: No, a registered person will have to approach only one tax authority for all practical purposes. Each registered person would have one tax administration office, either of the Centre or of the State. Legal provisions (called cross empowerment) have been made to ensure that one officer can discharge all functions under CGST, WBGST and IGST Act. The registered person would be informed of the tax administration concerned with him. A single registration is granted for the purposes of CGST, WBGST and IGST.

Question 6: What is destination based consumption tax?

Answer: When a supply originates in one State and is consumed in another State, tax can accrue to either of the two States. In a destination based consumption tax, taxes accrue to the State where the supply is consumed. In origin based tax, the tax accrues to the State where the supply originates. GST is basically a destination based consumption tax. For example, if a car is manufactured in Chennai but is purchased eventually by a consumer in Mumbai, SGST (or the State component in IGST) would accrue to Maharashtra and not to Tamil Nadu.

Question 7: Who will pay GST?

Answer: GST is generally paid by the supplier, i.e. the one who makes the supply after collecting it from the recipient. The supplier collects GST from the recipient of the supply as part of the consideration. However, in a few exceptional cases, the recipient, would be liable to pay GST to the Government on reverse charge basis.

Question 8: What is Input Tax Credit?

Answer: A person doing business will be purchasing goods/availing services for making further supplies in the course or furtherance of business. When such purchases are made by him, tax would

have been charged by his supplier and collected from him. Since tax is collected from him, he can avail credit of the tax paid by him to his supplier (that is to say, he can use this amount for making payment of tax due from him on further supply made by him). This is known as input tax credit for the recipient.

Question 9: Is GST going to increase compliance burden on the trade?

Answer: No. On the contrary GST will result in streamlining of processes and reduction of compliance burden. GST is a simple tax which uniformly applies across the country. GST has been designed to have minimal human interface and would be implemented through strong IT platform run by GSTN. Also, in the earlier regime there were multiple compliances required for taxes such as Central Excise, Service tax, VAT etc. with Centre and State. GST makes it single and uniform compliance for indirect taxes across the country. Under GST, there is just one interface with no face-to-face meeting between taxpayers and tax authorities and practically every activity will be done online.

Question 10: What is the threshold for registration in GST?

Answer: A person having business which has aggregate turnover of more than Rs. 20 lakhs calculated for a given PAN across the country would need to register under GST. There are some exceptions to this rule as mentioned in section 24 of the WBGST Act, 2017. Aggregate turnover is defined in section 2(6) of the said Act.
